Question 2 • 08:07 AM

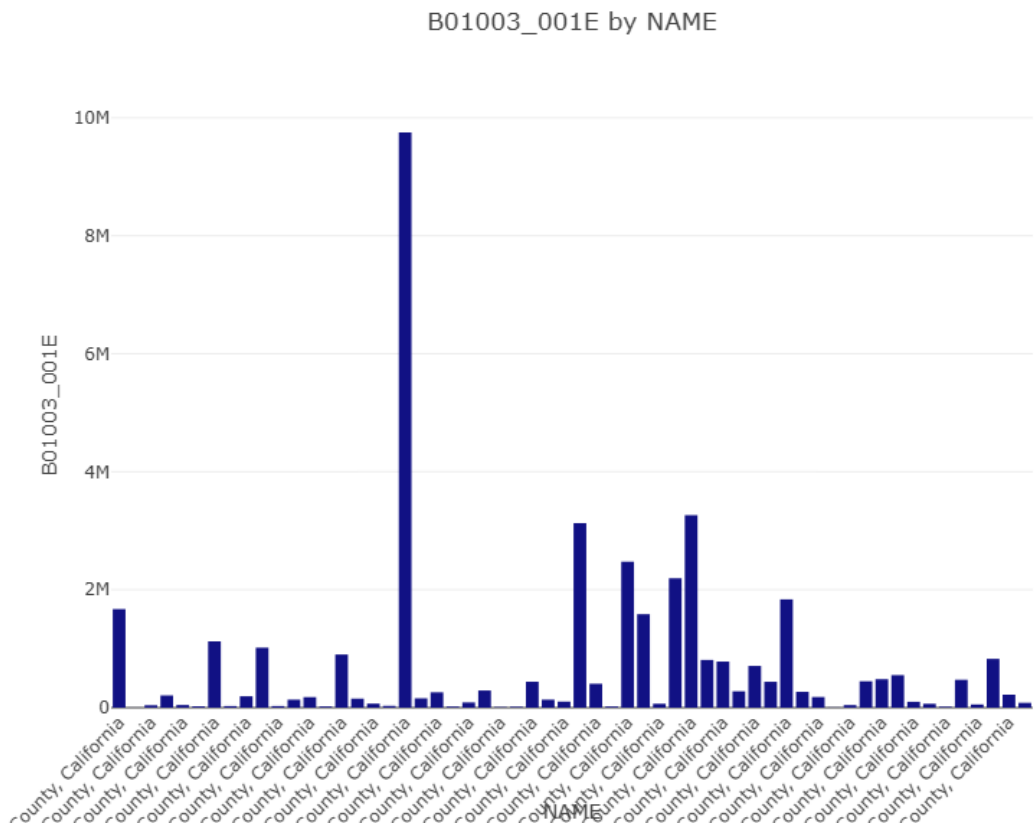

■ Compare population by county in California

■ Answer:

Here's the 2023 ACS 5-Year population comparison for California counties: Los Angeles County is the largest at 9,751,997 people, followed by San Diego County at 3,261,809 and Orange County at 3,129,724. The smallest counties are Alpine County (1,159), Sierra County (3,236), and Modoc County (8,488).

Census Data Session Report

■ Chart:

1. Source: U.S. Census Bureau, 2023 American Community Survey (ACS) 5-Year Estimates.
2. Census table used: B01003 (B01003\_001E = Estimate of total population).
3. Margins of error (MOE) are not included here; use the corresponding MOE variables for significance testing.
4. This output is for informational purposes; verify critical figures at [data.census.gov](https://data.census.gov) or the Census API documentation.

■ Data Table:

| NAME                            | B01003_001E | state | county |
|---------------------------------|-------------|-------|--------|
| Alameda County, California      | 1671329     | 06    | 001    |
| Alpine County, California       | 1159        | 06    | 003    |
| Amador County, California       | 40575       | 06    | 005    |
| Butte County, California        | 207303      | 06    | 007    |
| Calaveras County, California    | 44289       | 06    | 009    |
| Colusa County, California       | 21913       | 06    | 011    |
| Contra Costa County, California | 1124444     | 06    | 013    |
| Del Norte County, California    | 27657       | 06    | 015    |

Question 4 • 08:12 AM

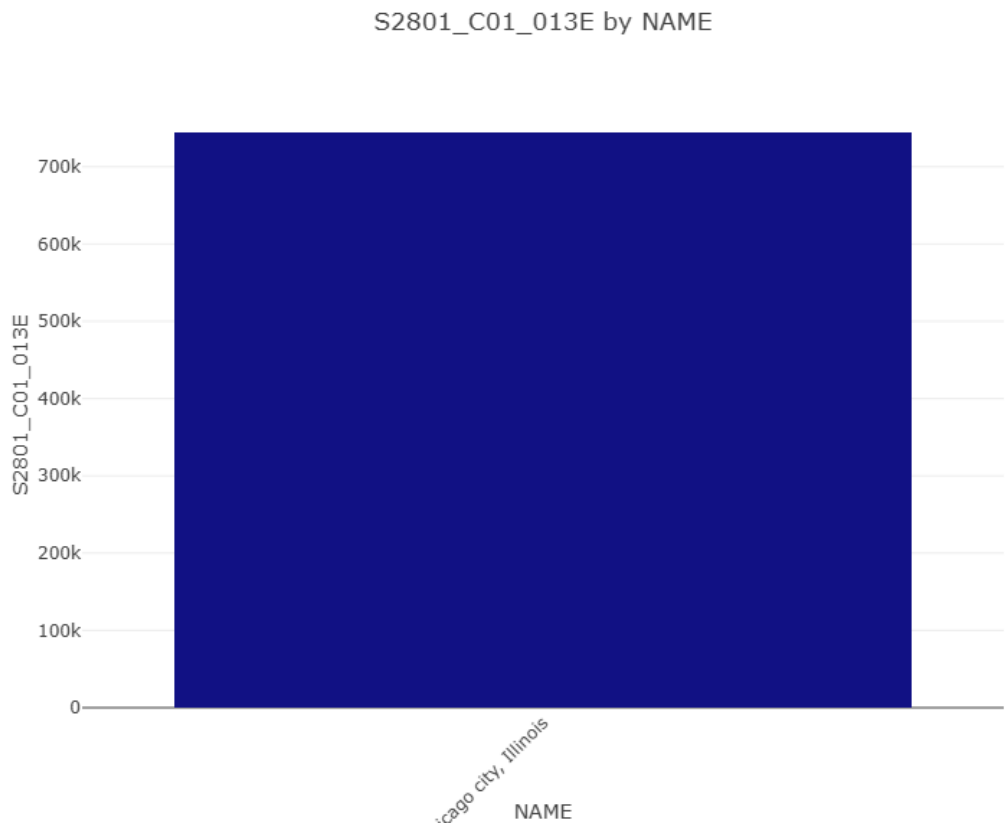

### ■ How many people have smartphones in Chicago?

#### ■ Answer:

Chicago city, Illinois has an estimated 744,372 households with a smartphone (44.9% of households), according to the 2023 ACS 5-Year estimates (table S2801). This is a household-based measure; the Census does not directly report the number of individual people with smartphones in this table.

# Census Data Session Report

■ Chart:

- 1. Source: U.S. Census Bureau, 2023 American Community Survey (ACS) 5-Year Estimates, Subject Table S2801.
- 2. The ACS S2801 smartphone measure is reported at the household level (households with a smartphone), not the number of people who personally own a smartphone.
- 3. Margins of error not shown. For statistical significance, refer to Census Bureau documentation.
- 4. Geography: Chicago city, Illinois (place:14000 in state:17).
- 5. Verify critical figures at <https://data.census.gov/>.
